Met Office Aberdeen Meteorologist's View
Gusts around 50mph likely over ridges and summits producing a significant chill-effect.

Forecast for Saturday 26 Sep 2020
Weather: Another rather cloudy start with occasional showers, still wintry above about 900m. The showers die out through the morning with some long spells of sunshine developing for the afternoon.

Maximum wind: Northerly 25-30mph, with gusts around 50mph over ridges and summits gradually easing 20mph.

Chance of cloud free mountain/hill tops above 800m: Around 25% at first with periods of cloud above about 750m but rising close to 100% by midday as cloud breaks and generally lifts above the summits.

Visibility: Very good or excellent falling to just a few kilometres in wintry showers over higher summits.

Temperature: **Glens:** Around plus 2 Celsius at dawn rising to plus 12 Celsius by day
At 800m: Around plus 2 Celsius rising to plus 4 Celsius
Freezing level: Around 900m rising to 1200m
